The Non Land-Grant section of the Academic Year 2000/2001 Current Faculty and Academic Year 1999/2000 New Faculty Hired report presents data concerning the number, average monthly salary and full-time equivalents of current and new faculty by appointment, rank, academic area, academic specialization, high degree, NASULGC region, gender, race/ethnicity and citizenship in the agriculture administrative units at Non Land-Grant Institutions.

These data were reported using specializations based on the U.S. Department of Education's "Classification of Instructional Programs (CIPs) Codes." The CIPs codes used for the Academic Year 2000/2001 Survey of Faculty were chosen through cooperation from both AASCARR (American Association of State Colleges of Agriculture and Renewable Resources) and NASULGC/ACOP/APS (National Association of State Universities and Land Grant Colleges/Academic Committee on Organization and Policy/Academic Programs Section). Please see Appendix A for a list of academic specializations and their definitions.

Figure 13 presents the average monthly salary of full-time Resident Instruction Faculty in Academic Year 2000/2001 by academic area. The highest average monthly salary (\$6,910) occurred among the 32 Related Biological/Physical Sciences faculty. Horticultural Sciences faculty had the lowest average monthly salary (\$5,926) (Table 52). Figure 14 shows the percentage of the 70 New Faculty Hired by academic area in Agriculture, Renewable Natural Resources and Forestry Programs (excluding non-agricultural programs). The largest academic area, Forest Sciences, accounted for 18.5 percent (13 of 70) of total resident instruction New Faculty Hired. (Table 53).
